Telegent Named 2009 GSMA Asia Mobile Awards Winner

*Telegent's free-to-air mobile TV receiver – TLG1120 – selected as winner for
“Best Mobile TV or Video Service”*

Sunnyvale, CA – November 18, 2009 – Telegent Systems, the company that makes television mobile, today announced that it has been named a winner in the GSMA Asia Mobile Awards 2009 in the category of “Best Mobile TV or Video Service” for its free-to-air mobile TV receiver, the TLG1120. Winners were selected by a panel of independent analysts, journalists and industry experts and the awards were announced last night at the GSMA Mobile Congress in Hong Kong.

Telegent's TLG1120 mobile TV receiver enables the reception of live, analog free-to-air broadcast television on handsets and other mobile devices, providing consumers with access to the same live programming that they view on conventional TV sets. Since its inception, Telegent's mobile TV technology has been incorporated in more than 50 million mobile handsets, sold to consumers in Southeast Asia, Latin America, the Middle East and Africa, China and Russia/CIS. The TLG1120 supports analog broadcast TV standards NTSC, PAL and SECAM.

“It is an honor to be recognized by the GSMA for our analog free-to-air mobile TV technology,” said Samuel Sheng, Telegent's president and chief executive officer. “Our emphasis on providing consumers with free-to-air analog TV technology is a cornerstone of our vision of delivering TV to every screen.”

About Telegent Systems

Telegent Systems is a fabless semiconductor company that enables the reception of live, free-to-air analog and digital broadcast television in mobile handsets and other portable consumer devices. Telegent's television-on-a-chip solutions solve the long-standing technical challenges that have precluded mobile reception of analog broadcast TV, enabling manufacturers and operators to benefit from the convergence of broadcast TV with mobile and portable devices. Telegent's products are the most widely sold broadcast television solutions for mobile handsets in the world. For more information, visit www.telegent.com.
